## TECHNOLOGY in 1587

---

Of the inventions listed below, which would have been available (answer “yes” or “no”) at the time of the Roanoke Island colonists in 1587, and what effects might invention’s presence (if “yes”) or absence (if “no”) have had on the colonists and their mission?

<b>Invention</b>	<b>Yes or No</b>	<b>Effects of its Presence or Absence on Colonists</b>
------------------	------------------	--

<b>Example:</b>  Electric Light Bulb	No	Had to use candles or some form of fire, could not do without light at night; had to make wax candles; might have gone to bed at dark; needed source of fire; needed string
